Professional Summary

Senior Full-Stack Developer with 8+ years of experience designing and scaling web applications across the React, Vue.js, and Node.js ecosystems. Proven track record leading cross-functional engineering teams of up to 12, driving legacy-to-modern framework migrations, and pioneering cloud-native development workflows with containerized microservices and CI/CD automation. Experienced collaborating with distributed, cross-timezone teams on international projects; fluent in English and Spanish.

Skills

Languages & Frameworks: JavaScript, TypeScript, Node.js, Express, React, Vue.js, Svelte, Redux, Vuex, HTML5, SCSS, jQuery, React Native, Kotlin

Cloud & DevOps: AWS (Lambda), GCP, CI/CD, Git, RESTful APIs, MySQL, Android, Capacitor

Testing & Quality: Jest, Mocha, Unit Testing, Integration Testing

AI Engineering: LLMs, Generative AI, Prompt Engineering, RAG, AI Agents, LangChain, OpenAI API, Vector Databases

Practices & Methodologies: Microservices, Distributed Systems, OOP, Agile, Scrum, Kanban, Full-Stack Development

Design Tools: Figma, Sketch

Languages: English, Spanish – Professional working proficiency or above

Experience

Senior Full-Stack Developer

Northwind Logistics

01/2025 – Present

Edoras, Rohan

- Spearheaded development of a scalable internal component library on React 19, leveraging Server Components, concurrent rendering, and modern state management.
- Drove the multi-phase migration of a legacy jQuery application to modern React, coupled with a complete UI/UX design-system overhaul.
- Architected an internationalization (i18n) strategy with react-i18next to support multi-language capabilities across the platform.
- Scaled unit and integration testing frameworks with Jest and React Testing Library, raising codebase reliability and test coverage.
- Pioneered a cloud-native development cycle with containerized microservices, building internal tooling and integrating CI/CD pipelines into the core engineering workflow.

Key Technologies: React 19, TypeScript, Server Components, react-i18next, Jest, React Testing Library, Docker, CI/CD

Senior Full-Stack Developer

Meridian Consulting

09/2020 – 01/2025

Rivendell, Eriador

- Guided development of diverse applications across cross-functional teams of 5–12 engineers, occasionally overseeing multiple teams concurrently.
- Increased platform usage by 25% through strategic performance enhancements.
- Mentored junior and senior professionals, contributing directly to their career progression.
- Delivered unit testing training to junior professionals, strengthening team-wide testing proficiency. (2022)
- Presented refined solutions directly to clients, emphasizing a commitment to delivering impactful, results-driven outcomes.
- Served as a mediator in cross-functional discussions and facilitated communication with international counterparts, strengthening collaborative team dynamics.
- Deployed applications to production multiple times, ensuring seamless transitions from development to live environments.
- Optimized day-to-day engineering processes, improving workflow efficiency across teams.

Key Technologies: Agile/Scrum, Performance Optimization, Team Leadership, Mentorship, Client Delivery, Production Deployment, Cross-Timezone Collaboration

Front-End Developer

Meridian Consulting

07/2018 – 08/2020

Rivendell, Eriador

- Drove development of entire epics spanning numerous features, reducing support ticket volume by 40%.
- Proposed solutions to enhance system performance, demonstrating a proactive approach to optimization.
- Introduced development patterns that improved team efficiency and workflow.
- Presented refined solutions to clients, emphasizing a commitment to high-quality, reliable outcomes.
- Transitioned into a leadership role, guiding small teams and adapting quickly to new responsibilities.
- Provided programming and JavaScript training to colleagues from diverse non-programming backgrounds, fostering cross-functional skill development. (2019)

Key Technologies: JavaScript, HTML5, SCSS, REST APIs, Performance Optimization, Training & Mentorship

Front-End Developer

Cascade Softworks

11/2017 – 07/2018

Bree, Eriador

- Led development of responsive frontend clients for fintech platforms across web and mobile.
- Planned sprints and reported progress directly to the CEO.
- Deployed applications to test environments using Node.js and GCP services, ensuring efficient validation.

Key Technologies: Node.js, GCP, Fintech, Sprint Planning

Mobile Developer, Intern

Harborview Digital

08/2017 – 12/2017

Bree, Eriador

- Independently developed entire features while serving as an intern.
- Provided direct progress reports to the project manager.

Education

Postgraduate Degree in Applied Data Engineering

Lonestar Institute of Technology

02/2026 – 02/2027

In Progress

Bachelor of Software Engineering

Coastal Union University

02/2024 – 12/2024

Bree, Eriador

Bachelor of Software Engineering (Not Completed)

Central State University

10/2012 – 07/2018

Bree, Eriador

Certifications

- **iOS Developer Certificate** – Apple Developer Academy 02/2015 – 12/2015
- **Android Developer Certificate** – Google Developer Academy 01/2016 – 06/2016
